## **DETAILED ACTION**

### ***Election/Restrictions***

Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 3-4 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### ***Allowable Subject Matter***

Claims 1-7,12-17,19-21 and 43-58 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach a combined radiation and drug delivery catheter that includes the combination of an ionizing radiation source coupleable to a catheter body, a source of at least one radiosensitizer, a balloon coupleable to the catheter body and a matrix formed over at least a portion of the balloon wherein the radiosensitizer source is in or beneath the matrix and the balloon is free of the radiosensitizer source.

The prior art does not teach a combined radiation and drug delivery catheter that includes the combination of an ionizing radiation source coupleable to a catheter body, a source of at least one radiosensitizer, means for releasing the radiosensitizer to the body lumen, and perfusion threading on an outer surface of the means for releasing. It is noted that means for releasing has been interpreted in view of 112 6<sup>th</sup> paragraph.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
